

Important: In Dialux and other light calculation programs you can fill in the poleheight.

You should however take into account the height of the Luminair.

Example: Pole height 4.0 meter + Luminair lightsource height 0.50 meters = 4.5 meters.

Results as shown below:

Projectbeheer			
Armatuur	Positie / rotatie	Montagehoogte	Naam
Positie			
X: 9.329 m	Y: 8.614 m	Z: 4.5 m	
Rotatie			
X: 0.0 °	Y: -0.0 °	Z: -0.0 °	
begrote rekening			
Em armaturen:		5 lx	
Em totaal:		5 lx	

The mounting and lightsource (usefull -lower) height are now as shown below.

Projectbeheer	
Armatuur	Montagehoogte
Montagewijze:	Door de gebruiker bepaal ▾
Montagehoogte:	4.5 m
Nuttige hoogte:	4.4 m
